Here are some scenarios to help you figure out what you need to do in certain registration situations:

If I want to register lambs born to...	Then...
1. Ewes that I own and were bred on my farm to a ram that I own.	You must complete the regular Registration Application form.
2. Ewes bred elsewhere, which I then purchased and whose lambs were then born on my farm.	<p>Submit a Certificate of Parentage/Service form along with a Registration Application. The Sire's owner submits the Certificate of Service form to you, and you fill out the Certificate of Parentage section.</p> <p>Lambs will carry the Seller's farm name and prefix.</p>
3. Ewes bred elsewhere whose lambs were born elsewhere and had not been registered when I purchased them.	<p>Seller needs to register all lambs.</p> <p>The lambs' registrations can then be transferred to you.</p>
4. Ewes that I own that were bred to a borrowed or leased ram.	Owner of ram submits Certificate of Service form to you, and you fill out the Certificate of Parentage section. Submit form along with a Registration Application form.

Note: All transfers of ownership must be completed for the lamb's sire and dam prior to registering lambs born to (or sired by) those animals.
