

BBSAI Sheep Registration

IMPORTANT: Read the instructions on the back of the form before making entries.
 INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED.

Be sure to email one photo of each sheep you are registering to
registrar@blackbellysheep.org (preferred) OR mail the photo(s) with this application.

Do not use this form to transfer sheep to a new owner.

All blanks must contain information. "N/A" and "unknown" are acceptable where applicable.

Registration fee: \$7.00 per head. Personal checks must be drawn on United States bank. Payment must be in US Dollars (USD).
 Make checks payable to BBSAI and mail to: 10250 Highway C Hillsboro, MO 63050

Instructions for Completing the BBSAI Application for Registration

This form is not to be used to register/transfer sheep to a new owner.

- ① **OWNER NAME** The name of the person who currently owns the sheep being registered. This is required to be the breeder of the sheep, unless the lambs being registered are out of a ewe that was sold bred with a Certificate of Service.
- ② **BREEDER NAME** **The owner of the dam at the time of service is the breeder of the lamb.** If you purchase or sell a bred ewe, the person owning the ewe when bred is the *breeder*, and the person owning the ewe at the time she lambs is the *owner*. Use separate applications for sheep having different breeders. **Lamb names will be prefixed with the breeder's farm name.**
- ③ **FLOCK PREFIX** Three characters that you chose on your membership application; they become the first three characters of the sheep's registration number. (e.g., PAL (PAL0500250H).
- ④ **FLOCK NAME** The flock name that all the sheep you raise will carry. Use your surname or your farm name (e.g., Rocking H; Sweetbriar; Williamson's). Flock names are unique and limited to 14 letters, including spaces. If the name you provide is already in use by another breeder recorded in the Registry, the Secretary will ask you to choose another Flock Name.
- ⑤ **REGISTER OR TRACK** You may only *register* Barbados Blackbelly and American Blackbelly sheep that meet the breed standards. You may *track* other sheep that do not meet breed standards but are used as a sire or dam to produce registered sheep or are the offspring of registered sheep. Submit sheep for tracking on a separate page than used to submit sheep for registration.
- ⑥ **USDA SCRAPIE NO.** The National Scrapie Eradication Program (NSEP) is a mandatory Federal program that requires any farm that raises sheep for transport off the farm premises to be assigned a nationally unique number. List in this box the flock ID number assigned by the State USDA Veterinary Services area office. Most are alphanumeric and include the State postal abbreviation followed by a number. Example: TX30451
- ⑦ **SHEEP NAME** The common or "pet" name of the sheep. This name will be appended to your flock name to become the sheep's official, registered name (e.g., Rocking H Magellan; Sweetbriar Rocky; Williamson's Rose).
- ⑧ **BREED** AB = American Blackbelly BB = Barbados Blackbelly
- ⑨ **SEX** R = ram E = ewe

⑩ **SCRAPIE TAG AND EAR TAG NO.**

⑪ **DATE OF BIRTH**

⑫ **NUMBER IN BIRTH**

⑬ **SIRE/DAM NAME & REGISTRATION NO.**

Each sheep offered for registration MUST bear an individual identification tag or tattoo. ID tags can be purchased from most livestock supply companies. If the sheep has a scrapie tag, enter the individual scrapie number (not the premises ID) in the blank. In addition, enter any other ear tag number assigned to the sheep. This field is required.

[Month Day Year] (e.g., 5/15/00 or May 15, 2000)

1 = single 2 = twins 3 = triplets 4 = quads

Photos

To register a sheep, both of its parents must already be registered. Enter the name and BBSAI registration number of both the dam and the sire of the sheep being registered. If the numbers are not known, enter "Unknown."

- Email one photo of each sheep being registered to registrar@blackbellysheep.org or include the photo(s) with your registration. Email is preferred. All photos become BBSAI's property and may be used in BBSAI publications without attribution.
- The photo must clearly show the face, body, and tail of the sheep and must be taken sufficiently close to the sheep so that markings are visible. The photo must not be blurry or out of focus. This photo will appear on your registration certificate.
- If submitting digital photos, include the sheep's name and number in the file name (e.g., 0782.Rocky.jpg). For printed photos, write the sheep ID (name and/or tag number) and date photo was taken on back of each photo.
- The photo must clearly distinguish the sheep being registered from any other sheep in the photo. Both digital and hardcopy photos should be cropped so that the sheep being registered is predominant.
- If using a digital camera, we prefer photos taken at high resolution (best quality) that include the date of the photo. If you have the technology, resize the photos to 2MB or less. See your camera's instruction manual for details.
